

Your Corinth Gas and Water utility bill is itemized for easy reading. Each billed utility service is listed by service type (i.e. gas, water, solid waste, waste water). Each service type's base charge is also listed. The current and previous monthly reading, the date the meter was read for the current month and the charge for the services are all listed for your convenience.

All transactions (payments, service charges, adjustments, etc.) completed within the monthly billing period are summarized in the middle of the billing statement. The number of days in the billing period, are listed along with the due date for the current month bill.

If the statement in question is delinquent, the past due amount is listed as a separate line item from the current amount due. The daily average usage for the month is detailed with last year's usage for comparison which could assist you in conservation efforts. For quick reference, your account number, bill payer name and service address are always listed along with Customer Service Operations telephone number (662) 286-2263 should you need assistance with any questions you may have concerning your utility billing statement.
